Attorney Speaks To Student Body

Attorney Raymond J. Brown spoke on the subject "The Constitution of the United States of America" at the assembly, September 17. That day marked the 154th anniversary of the signing of our Constitution.

The student body sang "America," led by Mr. Derr. Then Mr. Harmony introduced the speaker, Mr. Brown. He explained why the Constitution was written, what it provided for, who made it, and what its achievements were and are. In conclusion, he told of his faith in the younger generation. The assembly was ended after the pupils sang, "God Bless America."

Mr. Brown was sent under the auspices of the Bar Association and the Sons of the American Revolution.

Pupils Buy Activity Stamps on Tuesdays

When activity stamps went on sale in the home rooms Tuesday, September 9, Mr. Harmony urged that all students keep up to date on their books and thus be able to enjoy all opportunities to use their activity stamps.

The books are orange, the same as last year, but the stamps are blue compared to last year's green.

The stamps will be sold in the home rooms each Tuesday morning throughout the year. They may be used for football and basketball games, all auditorium programs, towel service, gym and hall locks, and the paper.

School Operetta To Be Sponsored By Choir Group

Choir Also Makes Plans For Christmas Cantata

Two major performances will be presented by the Johnny Appleseed Choir this year. The largest production will be an operetta given sometime in the latter part of February or the early part of March.

Mr. Derr, choir director, will be in charge of the musical production for both of the projects. The Christmas Cantata will be by the choir, while the operetta will be produced by the whole school.

Miss Garner, girls' physical education instructor, will have charge of the dancing for the operetta. Miss Ruth, dramatics instructor, will be in charge of the dramatics. Miss Stark and Miss Herring, along with Mr. Clouse, will make the stage settings. The publicity department will be handled by Miss Shaffer and Mr. Neff. Mr. Jorgensen will direct the orchestra numbers.

Last year the Johnny Appleseed octet made quite a name for itself. Since it has lost some of its members to the Senior High School, Mr. Derr has formed a double sextet to carry on the good work.

The new seventh grade classes of Johnny Appleseed have formed a seventh grade chorus. It consists of 112 voices. This group meets separately twice a week during music classes and as a body once a week.

Enrollment Climbs At Johnny Appleseed

Last June when school closed, the enrollment at Appleseed was 647 pupils. This year there are 667 pupils registered for the new year.

Of the 667 pupils this year 334 are boys and 333 are girls, which shows they are about even in number.

Last year on the opening day of school there were 673 pupils enrolled. That shows a slight drop in the year 1940-'41.

Most new seventh graders are coming from Western, Woodland, Brinkerhoff, and Hedges, while most of the eighth and ninth graders came from John Simpson Junior High.

Mr. Harmony Greet's Pupils On Opening Day of School

G. W. HARMONY

September 3rd marked the first day of school this new year. The skies were gray but still the pupils flocked to school spic and span and ready for the new year's work.

School opened this year with a new principal, Mr. G. W. Harmony, who took Mr. Glenn Rohleder's place when he went to Senior High school. A new teacher was also welcomed, Miss Elzabetta Ruth.

Mr. Harmony has the following message for the pupils of Johnny Appleseed.

To the Pupils of Johnny Appleseed Junior High School

"Another school year has started for you—a year of opportunity along many lines. What you make of this opportunity depends upon several factors, largely, however, your success will be due to your own efforts. What you do day by day finally adds up to the total of your achievement for the year. If your efforts are concentrated on the tasks at hand—if you allow no interferences to creep in—you will be rewarded by success.

During this brief period since school has started, I have been impressed by the orderliness and politeness of our student body. All seem to be anxious that Johnny Appleseed Junior High may establish a reputation of good citizenship in our community.

We are proud of our building, which has been provided by the citizens of Mansfield, and we are anxious to maintain it. I hope we may all work toward this end. Let us all pledge ourselves to the pleasant task of caring for our school.

I have enjoyed thoroughly the few short weeks it has been my privilege to serve you as your principal. I sincerely trust that the days and weeks ahead will be pleasant and profitable for all."

Mr. G. W. Harmony.

Patriots Present American Flags

Miss Mary Beilstein and Mrs. Harry Constance of the Women's Relief Corps, a patriotic organization, on September 26 presented flags to the twenty-one home room representatives of Johnny Appleseed.

The program, with Judge Guy Findlay of Elyria as guest speaker, was in honor of Ohio Apple Week. Judge Findlay's speech was entitled, "Johnny Appleseed and His Relation to Conservation."

The flags, which are three feet by five feet, will be erected on brackets in each home room.

Professor Albright Shows Slide Study

At their first assembly in the auditorium of the school year during the sixth period, Tuesday, September 9, the pupils at Appleseed had the opportunity to see slides prepared by Professor John Albright from the Case School of Applied Science, Cleveland, Ohio.

The slides were of sunsets and clouds. As they were shown, Mr. Albright described the different colors and shapes of the clouds, what they were called and what they meant.

TEACHERS WILL CONVENE

On October 24th pupils of the Mansfield schools, along with students in Ohio will enjoy a day's vacation while the teachers attend their annual convention in Cleveland.

Boys and Girls Split Honors In Ninth Grade Election

By ANNE FORD

Elected by a majority of the 1941 ninth grade class of 205, Murray Swihart, the tallest boy in school, will preside as president of the class. Other officers also elected are: Charles Sauder, vice president; Helen Pecht, secretary; and Joan Kullman, treasurer. Mr. John J. Thoms, mathematics and home-room teacher of room 113, was chosen as class adviser.

These people were selected from a field of 16 nominees. The four from which the president and vice president were Murray Swihart, Charles Sauder, Fred Werner and John Stanton. Those nominated for secretary were Helen Pecht, Lola Williams, Eleanor Young and Anne Ford. For treasurer, Joan Kullman, Nancy McCombs, Mary Margaret Kochheiser, and Barbara Tingley were voted upon. Candidates for class adviser were Mr. Thoms, Miss Moser, Mrs. Thorne, and Mr. Correll.

Murray is from Mr. Thoms' home room, John and Charles from Mr. Correll's, and Helen from Miss Beck's.

When interviewed all said they were happy to be chosen. Mr. Thoms will call a meeting of the officers soon to outline plans for the coming year. "As far as I am concerned," he said, "The wishes of the class will be respected. My motto is 'I live to please because I'm pleased to be living'."

When Murray Swihart was stopped on his way to English class and asked his activities and hobbies, his first word was "girls." He is also a Boy Scout, captain and slide trombonist in the band, the fellow who raises and lowers our flag every morning and afternoon, a football end and letterman, and on the Board of Directors in Dramatics.

Charles Sauder, who lives on Harter Avenue, was a basketball

letterman last year and is going out again, was a football manager last year, is interested in art, stamps, and match covers, which he collects.

Helen Pecht, better known as "Onion-eater" is an all-round girl as her list of activities will show.

When asked where she lived (which is on Marion Avenue) Helen said: "Want to know my telephone number?" She is vice-president of the Girl's Athletic Association, is captain of a volleyball team, in Girl's Leaders club, a member of the M. A. T.'s, was library assistant and played drum in the band last year, is in the ninth grade dramatics class, and her hobbies are sports, reading and dancing.

Joan Kullman, the new treasurer, is "Happy about the whole thing, and they can trust me with the money," she says. Joan lives out on Marion Avenue road and is interested in horseback riding, tennis and driving cars. She is an active member of Girl's Athletic Association, the B. C. D. club (which she won't tell us what it means), and captain of a soccer team.

This is a summary of the lives and interests of our ninth grade officers.

TYPICAL AUTUMN WIND SWAYS FLAGPOLE

During the heavy winds that blew Thursday, September 25, quite a few people noticed the flagpole out in front of the school. The heavy winds that blew made it sway back and forth.

Learn Your Creed And Flag Pledge—

By NANCY McCOMBS

We wish to encourage people who do not know the American's Creed or the Pledge to the American Flag to learn it and we are publishing them for their benefit.

The American's Creed

"I believe in the United States of America as a government of the people, by the people, for the people; whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign Nation of many sovereign states; a perfect union, one and inseparable; established upon those principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes.

I therefore believe it is my duty to my country to love it; to support the Constitution; to obey its laws; to respect its flag, and to defend it against all enemies."

The following pledge to the American flag was written August 1892, and Francis Bellamy is credited for writing it. At a Columbus Day celebration in the same year, 1892, it was first repeated.

"I pledge allegiance to the flag of the United States of America, and to the Republic for which it stands, one nation indivisible, with liberty and justice to all."

Mr. Huber, in Science class: "Joan Kullman, what is a vacuum?"

Joan: "Oh, that's something with nothing in it."

Appleseeders Become Movie Stars for Day

The main entrance of the John Appleseed Junior High School building was, on September 10, the scene of a moving picture of the boys and girls leaving the building. The film was shown along with other typical Mansfield scenes, at the Madison Theater on September 17 and 18. A few of these scenes were taken at the John Simpson Junior High, Senior High and the St. Peter's Catholic school as pupils left those buildings. A meeting of the Mansfield Junior Chamber of Commerce, the Mansfield Police and Fire Departments, the Westinghouse and Tappan Stove employees, leaving after a hard day's work, Mansfield's courthouse and a few of the larger homes were shown.

Girls Learn to Can In Home Economics

On the week of September 10 through Friday, the ninth grade girls' Home Economics Class had experience in canning. On Wednesday they canned tomatoes, Thursday they canned peaches, then on Friday, they made jelly.

By invitation they are looking forward to an outdoor cooking campaign at Nancy Bullock's home.

State of Ohio Honors Johnny Appleseed with "Apple Week"

In honor of John Chapman, the week of September 21-27 has been set aside for state-wide celebration. This historic nursery man was popularly known as "Johnny Appleseed." The week was designated as "Apple Week."

He was born on his father's farm near Springfield, Massachusetts, on May 11, 1768. From a small child he was a great lover of woods, fields, birds, and animals. When he was about twenty years old he went west with his brother, Nathaniel, stopping on his journey at the home of his uncle at Olean, New York, and there the idea came to him of being "an apple missionary." He started with seeds gathered in that region from the cider mills.

Johnny travelled for forty years after that planting nurseries wherever the soil was right and water plentiful. He would build a log cabin, plant several apple trees, and then move on. It is said that when the day's toil was over, the children would gather 'round to hear him play his violin, which he carried with his bag of seed.

During the Indian wars, Johnny had an influence with them because he planted healing herbs. In 1812, when the Indians were about to attack Mansfield, he ran 60 miles through the forest to get help from Captain Douglass. He died at

the age of 74 at Fort Wayne, Indiana on March 11, 1843.

Around the school posters were put up Thursday and Friday of that week made by art classes honoring him. The cafeteria served apples that week and the various classes studied the history of his life and what he means to Ohio, particularly Richland county.

Orchestra Elects Officers for Year

Johnny Appleseed Orchestra has elected officers for the coming year. The new President is Virginia Wagner; Secretary, James Day; Treasurer, Connor Fay; Manager, Robert Campbell.

The orchestra has fifty-seven members—twenty-seven of whom are new.

Mr. Jorgenson plans to have two exchange programs with John Simpson. They are working mainly on preparation periods, then they will work on concerts.

Sewing Classes Make Towels First Term

If you happen to walk down the hall of the second story in the left wing and hear a humdrum of noise you'll know it is just a group of eighth grade girls trying their hand at sewing. By the end of the year we will have some good sewers.

The first week, Miss Gant, sewing teacher, gave the girls some information and showed them how to baste and make running stitches. This week they got bright material and started on tea towels.

During the year the girls will make many articles, including playclothes, housecoats, skirts, blouses, aprons, and many others.

Students Save Stamps To Buy Equipment

This year's sales tax campaign is headed by Miss Beck and Miss Voll.

Our aim will be to buy things for the school. Last year we raised \$161.79 for the Red Cross and we bought a scoreboard in the gym, moving picture projector, curtains for the drama room, and pictures for the rooms.

A chart has been put up in front of the office to determine which room is ahead.

Everyone Makes Mistakes

By ANNE LORD

After all football and basketball games, there are some fans of the losing side who always make unkind remarks about the referees and players.

This is lacking in both courtesy and common sense. There are very few players who intentionally cheat and most referees value their jobs more than to be caught in unfair play.

Next time you are tempted to make a "crack" remember that everyone makes mistakes.

Pop, Termites, Snap

By JEAN JOHNSON

Here they are again these bothersome "critters." "Crunch," "Snap," "Pop" gnawing away a penny a day. In every class room and study hall you'll find them, in front or behind.

I overheard a "termite" in study hall the other day. "Do you know the page our Geography is on?" "Crack" It's on page 142 I think. "Thanks." "Snap," "Pop."

My Opinion of Appleseed

By LYNN ROSS

This year there are eight seventh grades, so there are many new boys and girls. Even if we did get lost a few times we think we're doing all right. In the first place the girls and boys are nice just like the teachers. I hope every seventh grader enjoys it as much as I do.

Imagine Appleseed Without

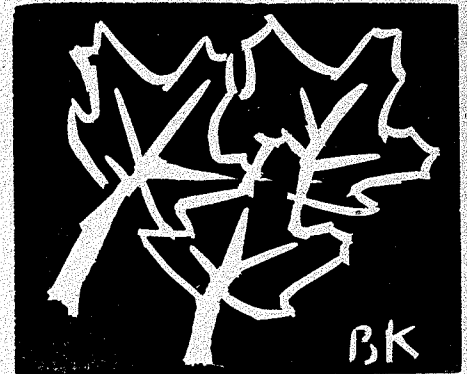

G. A. A.
 At least one set of twins in school.
 Everyone forgetting his seat in study hall.
 Boys wearing slack suits.
 Zipper notebooks.
 Murray Swihart's flag raising.
 The library and Dr. Huber's science classes.
 Boys in all three grades needing haircuts.
 Miss Shaffer saying, "Be sure to have that in by Thursday."
 Coach's three-layer chocolate cakes.
 Bob Clark tying and untying Barbara Rizer's belt in study hall.
 Earl McQuillen sleeping through classes.
 Birdie Kevey's strange treat, the icemilk-creamshake.
 The faces Gloria McKinley can make when she wants to.
 The seventh graders getting lost.
 Certain people always talking about Simpson.
 Virginia Barnett continually breaking her glasses.
 Martha Dune and Dorothy June together.
 Jean Rupp and her flames, new and old.
 George Loesch's flirting.
 Conner Faye rolling up his pants legs.
 Surprise quizzes.
 Pupils complaining about certain teachers and their assignments.
 Girls asking if it's snowing down south.
 Girls wanting in Leaders Club.
 Bonnie Hartman's tee necklace.

The Falling Leaves Wonder

Why pupils use lockers as an excuse to leave the room.
 Why Miss Ruth gives eighth graders the ninth grade assignments.
 Why the seventh graders don't pass notes in study hall.
 Why teachers give such big assignments.
 Why lockers are never clean.
 Why Appleseeders can never find their books.
 Why eighth graders have to learn to sew with a thimble.
 Why Miss McIlvaine objects to chewing gum.
 Why we have to come to school so early.
 Why we don't have more assemblies.
 Why Jean Curry goes into the wrong rooms at the wrong time.
 Why school had to begin.
 If we've made a good impression on Mr. Harmony.
 Why someone doesn't give a party or dance or something.
 If they'll ever have soup in the cafeteria again.
 Why Bob Clark doesn't sit at his desk instead of knocking it over.
 Why teachers have to get in moods.

Our Impressions

There goes the first bell. . . . I wonder which way we go. . . . Another bell. . . . Gosh, there are more bells around here. . . . Hurry up or we'll be late for class. . . . Oops, wrong study hall. . . . I better try this door. . . . What's that odd looking piece of wood on the wall. . . . Spooks- It talks. . . . Oh, it's so dark down here. . . . Gosh, but it's hot down here. . . . It's just the boilerroom. . . . There goes another bell. It's time for lunch. . . . I wonder if we're going to be initiated. . . . Pardon me! . . . First door upstairs in the left wing. . . . Do you think we can stop for a drink. . . . Thank heavens, last bell. . . . I hope every day isn't as tiresome as today was.

Did I Blush

When Virginia Barnett was "initiated" one day with a tube of lipstick.

Julia Colby when Miss Percy asked her if she left her head in Mrs. Thorne's room. It seems it was just a cabbage head used as an art project, but she's still getting "razzed about it."

The Lazy Boy of 8B7, when he was asked by Miss Ruth to get up to demonstrate the art of chewing gum to the class. P. S.: He did! A certain girl is still blushing because the boys insist on calling her "Zipper." (I wonder why).

When Miss Gant was sewing up Max Morrison's shirt.

Books on Parade

If you like to read, then try some of the new library books. There are over a hundred fiction and about one hundred non-fiction. If you like mysteries, you might try "Mystery of the Jasper Jewel Case."

Maybe some of the boys would prefer baseball stories such as "World Series" or "The Infield Twins."

Stories for girls would be, "A Place for Ann," or "Ann Bartlett, Navy Nurse."

Some of the other books are "The Army in Review," "The Secret of the Old House," "Wings for Carol," "Hostess of the Airways," "Painted Arrows," "Exploring with Beebe," "Pigboats," and many more.

By the gab in the cafeteria, we hear that football is coming back in season.

Rosey Leonard settling arguments and Dick Stafford flirting with all the girls.

Birdie Kevey with the usual "gang" around her.

Anne (Poon) Ford and Jean Johnson having a heart-to-heart talk.

John Stanton trying to show his "Superman" strength while waiting to go to lunch.

By SUZIE Q

Hi all! This is Suzie Q again bringing you news (?) from the halls of Appleseed.

Are my eyes deceiving me or what if they "hain't," our gorgeous creatures that we call girls are getting mighty popular, especially one who has a nice modern 1934 Plymouth, pick her up every day.

Sometimes I wonder if it's worth it. I mean this getting up at seven thirty, going to school, studying, coming out, studying some more and going to bed. Hey! don't get frightened! It's not that morbid. I just wanted to scare you a little. Now- Now! there don't cry, every thing is all right.

Did you see the Aurora Bor, I mean Auroura Bor. Oh, nerts, it's northern lights to you.—the other night?

Sh-h-h-! don't tell anyone, but I heard that our assemblies this year will be as good as last year's. Don't forget, you're not to let a soul know.

Oh, and by the way! your little Suzie wants to congratulate Chester Miller for the motions he makes with his hands during home room.

Nature Presents Pretty Spectacle

Most people saw the Aurora Borealis, Thursday, September 18. Those who saw this phenomenon think it is caused by the sun's reflection on the ice at the North Pole. This is not the right explanation. The Aurora Borealis, commonly known as "Northern Lights," is caused by the encounter of electrons from the sun with gasses such as krypton and nitrogen in the upper atmosphere.

It has long been observed that the compass needle is disturbed during a display of the Aurora Borealis. This display also plays tricks on the radio and telephone. Scientists try to predict ahead when it will show, but as yet they have not been very accurate.

Library Instruction Given to Classes

Several classes have gone to the library as a group where Miss Prosser, librarian, explained the usage of the library.

Entering the library from the hall the books on the right are the fiction books, while those on the left are the non-fiction. The books on the shelves behind the desk are reference books and most of them may not be taken from the library.

A book may be kept two weeks and renewed once if necessary. No books may be renewed more than once and if there is a reserve on the book it may not be renewed at all. A fine of one cent is charged for each school day the book is kept after the date due. Miss Prosser will charge a fine for damage done to books. She also asks that there be no studying in the library this year.

When asked by a reporter if she had anything buzzing around in her brain (meaning news), Miss Shaffer answered, "Confidentially, nothing." It isn't true, so don't take it wrong; she was only kid-ding.

Airplane Club Begins Activities

On Thursday, the eighteenth of September, those interested in joining the Airplane Club met in 202 for the first preliminary meeting under the supervision of Mr. Thoms. There were about fifty prospective members to plan for the club activities for this year:

Regular meetings will be held the sixth period on Tuesday. The older members will act as "big brothers" to the newcomers.

don Shaffer, Carl Schmidt, Murray Swihart, Robert Tupps, David Weaver, Ralph White, Kenneth Wagner, Bob Wilging, Earl Wendell, Jerry Zeller.

Managers: Fred Werner, ninth; Robert Lamb, ninth; Robert Glasscock, eighth; George Gernhardt, eighth.

Trophies Displayed In Gym Corridor

Johnny Appleseed now has quite a few trophies for their showcase. The latest one was presented to Allen Kinkle at an assembly last spring. Then Allen presented it to our last principal, Mr. Rohleder. That was for track.

Also, we have the shovel that first broke the ground for Johnny Appleseed Junior High. Altogether we have seven trophies in our showcase, along with a plaque.

Former Appleseeders Make Other Teams

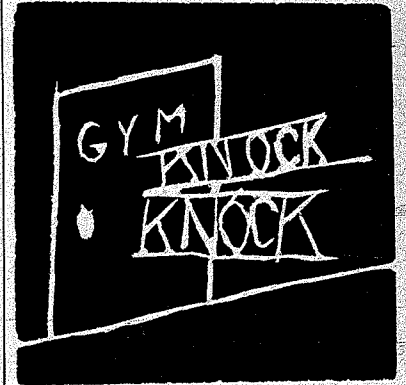

Some of Coach Cameron's boys have gone on to positions on the Madison High football squad and the Senior High squad.

Howard Herrick and Jerry Snyder have made the Senior High varsity team. Jack Morrison and Wallace Campbell are on the Madison High squad.

A few of the lucky ones have been put on the Mansfield Senior High reserves. They are Frank Miller, Bob Miller, Richard Davis, Allan Kinkel, and Dave Twitchell. All but Dave Twitchell played for Appleseed.

George Knackstedt, Paul Pfahler, David Sweet, Albert Etzel, Jack Meeting, Howard Herring, are on the Tyger Cub squad.

SPORTS KNOCKS

By BUD and GEORGE

Some of the seventh graders are wondering what's the use of a big gym locker and a small one.

* * *

Everybody is wondering what kind of a football team we will have this year.

* * *

Why is the coach so changed this year, not letting us go out on the gym field or on the gym floor during health classes? (I wonder).

* * *

Why has the coach built a cage to keep sports equipment in? (Maybe he doesn't trust us, well maybe so.)

* * *

Why does our pingpong table in the gym squeak?

* * *

Why do numbers 45, 52, 11, 25, 31, always put locks on the big gym locks rather than on their small locker? We don't think that is quite right. Other classes will come in and won't be able to find a locker to put their street clothes in. So let's watch it.

* * *

The seventh graders wonder how they're going to get along.

Plans Formulated For Boys Phys. Ed.

Coach Cameron has announced his plans for the boys' physical education program this year.

The boys in the seventh and eighth grades will use their textbooks to study health, while the ninth grade boys will study first aid. (He emphasized study.)

The program in the gym will be seasonal. At present, on warm days the boys go outside and play tap football. During basketball season, they will play basketball, during track they will practice running, jumping, etc. This program promises to be very different from last year's.

Along with these, he has planned a ninth grade badminton tournament, and ping pong, shuffleboard, volleyball, and basketball tournaments for the whole school.

SHOWER SHORTS

By ANNE FORD

The seventh graders all give us laughs in the gym, particularly when it takes them ten minutes to get dressed. Oh, well, they'll learn.

x x x

It seems that eighth and ninth graders were slower getting their equipment to school than the seventh. Naughty, naughty, is that a good example?

x x x

About the second week of school Miss Garner was looking forward for the time when all the locks would be issued. We can't blame her.

x x x

Leader's Club had a big turnout and everyone expects to have a lot of fun with basketball and so forth.

x x x

The pet trick of most soccer players is to kick at the ball, missing it and landing in an uncomfortable spot. Ouch! What about it, Charlotte?

x x x

Ninth graders are muttering after coming from the tougher ninth grade classes, that they wished they had flunked.

x x x

What's this we hear about a black puppy being in the shower room and getting caught in the door?

Intramurals Get Under Way

While the Appleseed boys concentrated on football, two hundred seventeen girls of the seventh, eighth, and ninth grades started their fall intramural program.

The ninth graders are playing soccer and volleyball, and have elected team captains for both sports by popular ballot. Captains of the ninth grade picked their teams in private, and then were given names. They are: Charlotte Collins, Co-Ed Hoppers; Mary Margaret Kochheiser, Streaks; Joann Wragg, Set-Ups; Helen Pecht, Over the Nets; Eleanora Young, Volleyettes. These teams will play four games each, thus playing a round robin tournament. Ninth grade soccer teams and captains are: Joan Kullman, Hard Fighters; Frieda Boebel, Soccerettes; Betty Miller, Hot Shots; Jean Rupp, Punters.

Eighth graders are playing

bounce ball by home rooms and captains and managers. They are: 8-1—manager, Shirley Ernsberger; captain, Gerry Woods. 8-2—manager, Jean Stiffany; captain, Marilyn Fleming. 8-3—manager, Barbara McKinley, captain, Dorothy Weaver. 8-4—manager, Jean Schooley; captain, Mary Ellen Reason. 8-5—manager, Frances Harter; captain, Jane Nusbaum. 8-6—manager, Martha Davidson; captain, Eileen Daley. 8-7—manager, Evelyn Boehlmer; captain, Helen Hunt. The names of these teams in respective order are: Snaps, Popovers, Gossips, Green Eyes, Spikers, Zippers, Bumble Bees.

The eighth grade soccer teams and captains are: Joann Beelman, Sockets; Eileen Daley, Slickers; Bonnie Hartman, Pushovers; Peggy Foltz, Dribblers; Margery Huber, Speedsters.

The seventh grade girls are going entirely by home rooms, and are playing only bounce ball. Captains and managers are: 7-1, Janell Leonard and Eleanor Goettl; 7-2, Dolores Littler and Wyona Conner; 7-3, Shirley Overmyer and Sally Brunk; 7-4, Joan Ernsberger

Cheers for the New Cheer Leaders

The above cheer leaders are: front row—Betty Wynn, Bud Crum, Clarinda Wilson, and Billy Ingram. Second row—Helen Pecht, Jean Johnston, and Anne Ford. John Stanton and Virginia Barnett were absent when the picture was taken.

* * *

In the gym on Friday, September 19, cheer leaders for 1941-42 were chosen by a committee consisting of Miss Ruth, Miss Wheeler, Mr. Hostetler, Verna Beth Graham, and Bob Wilging.

Try-outs at noon attracted a good number of aspirants for the posts. Last year's leaders were just reappointed, but the judges selected two teams, consisting of Jean Johnson, Helen Pecht, Anne Ford, John Stanton, Bud Crum,

and Billy Ingram, and three individualists: Betty Wynn, Clarinda Wilson, and Virginia Barnett for the coming year.

Try-outs were under the general direction of Miss Percy and Miss Beck.

G. A. A. Organizes Plans for Year

Official representatives to the meetings of the Girls' Athletic Association were appointed on Monday, September 8, in Miss Garner's office by the officers of the association: Anne Ford, president; Helen Pecht, vice president; Joann Banks, secretary; and Janet Banks, treasurer.

The following girls were appointed: Scrapbook, Joanne Lepert; ninth grade representative, Frieda Boebel; ninth grade hiking representative, Helen McClure; eighth grade representative, Colleen Wilkinson; eighth grade hiking leader, Marjory Carver.

The cabinet discussed the formulation of the point system and concluded that the same system that functioned last year be in

and Evelyn Winters; 7-5, Mary Betz and Mary Jane Diemer; 7-6, Norma Blackstone and Marjorie Van Allen; 7-7, Pat Gandert and Virginia Hopper; 7-8, Julia Colby and Dona Jean Reese.

NEW FLAG RAISERS BEGIN DUTIES

Two students of the ninth grade class, Murray Swihart and Norman Pore, are filling the position of flag raisers. Their job is to raise the flag in the morning before school begins, take it down when school dismisses, and other times when necessary.

operation this year. Major point system is as follows: For membership in G. A. A. one hundred points are needed. Points given: 75 points for team membership; 50 points, honorary team; 50 points for managers or captains; 10 points for officials; 50 points for serving on committees; 100 points for ice skate derby; 50 points for placing in derby; 100 points for president; 75 points for other officers; and 50 points for class and hiking representatives.

Approximately one hundred members attended the first meeting of the Girls' Athletic Association on September 11 in study hall, 205.

At the conclusion of the meeting, membership cards were sold by Anne Ford, Helen Pecht, and Joann and Janet Banks.

Pioneers Get New Equipment

Many people would be surprised at what goes into making a football suit. There are special shoes which play an important part, shoulder pads are very important to a player, helmets are one of the most important articles to a football player, and kidney pads are also very important. Also in making up a football suit, blocking pads come in handy, because sometimes you have to hit your man hard to stop him. Last, but not least, comes your jersey and pants.

This year the players will have tan khaki pants and Maroon and Gold jerseys. They will have suits this year for 33 boys and all the equipment is new.

Physical Education Plans Outlined

This year the seventh graders are going to study personal grooming in Miss Garner's health classes. In gym they will have intramural kickball and bounce ball.

Eighth graders will study posture and they will have soccer and bounce ball, which will also be intramural.

Ninth graders will be taught a new game which is called speed ball. They shall play soccer and volleyball, too. In health classes they will have first aid.

Classroom Projector Aids Visual Education Program

With some of the money brought in last year from sales tax stamps several articles were bought for the school. Among these was a class-room movie projector. This machine is being used a great deal this year for showing pictures to geography, history, and general science and several other classes.

A crew of boys is needed to run it, and this group consists of Robert Dysart, Fritz Shank, James Burkhart, Robert Myers, David Marchant, Tommy Daum, Bill Dune, Leslie Myers, Robert Hall, Earl Wendell, Eugene Thyseen,

Charles Sauder, Donald Johnson, and Robert Lamb.

The film committee is composed of Mr. Huber, chairman; Mr. Davis, Mr. Hostetler, and Mr. Clouse. They have appointed the above boys to run the machine during a certain period of the day.

Band Begins Work On Year's Program

The Johnny Appleseed High School Band, directed by Mr. Merton Holcombe, is off to a flying start this year with many new members filling the shoes of the departed ninth graders. The band is striving to achieve a bigger and better group this year, so if you can toot a horn or puff on a trombone or sax, report to Mr. Holcombe. The more the merrier and don't forget the dinners and band meetings sponsored by the band club every month.

Teachers Vacation or Study During Summer Months

Mr. Ramsey went to Ohio State University during the last week in July until the last week in August. He was working for his Master's degree. He didn't go sight-seeing or anything. All he did was go to classes.

* * *

Mr. Davis went camping in northern Michigan this summer. He went fishing and swimming while there. He took a 200-mile canoe trip also.

* * *

Mr. Thoms went by way of Niagara Falls to Calendar where he saw the Dionne Quintuplets. He also went to the biggest fair in Canada and drove about 75 miles north of North Bay into the wilderness. Then he took Route 11 to the copper and nickel mines. He went to Detroit and stayed for a day and a half. While there he saw Greenfield Village. He also went to Belle Isle, a resort, and saw the gardens and zoo. Then he went to Toledo and back to Mansfield. All together it was a 1600-mile drive.

* * *

While working all summer in a steel plant, Coach managed to take one week-end off to go to a Coach's Clinic held at the University of Michigan, Ann Arbor.

* * *

Miss Beck went for a week's cruise on the Great Lakes as far as Duluth—also a week's auto-

mobile tour visiting the Smoky Mountains. She stayed at the Williamsburg Lodge in Virginia. She visited Richmond and Charlottesville, Virginia. She said she also saw many historical scenes in Virginia.

* * *

This summer Miss Garner played hooky from school. She went west to Black Hills, Bad Lands, Big Horn Mts., Yellowstone National Park, Canadian Rockies, Lake Louise, Baniff National Park, Seattle, Washington, down the coast to San Francisco, crossed the Golden Gate, went on down the coast to Los Angeles. She even visited Hollywood. Back through Mojave Desert, Painted Desert, Petrified Desert, Ozark Mts., and finally home.

In all, Miss Garner covered 7,791 miles with every day a different and new attraction.

* * *

Miss Tucker, the Home Economics teacher of Appleseed, went to a National Convention of Home Economics Association that was held at the Blackstone Hotel in Chicago. The convention was about nutrition and foods. Professors from colleges and universities were there.

She went to Mitiwanga, Ohio for two weeks. The only thing she did was eat, sleep and get a suntan.

The Snooping Reporters

Apples, apples, everywhere, but not real enough to eat, because they're just for display purposes and are on a poster. Miss Her-ring, along with Miss Stark, is instructing the art classes in the making of those posters you saw in the cafeteria and around the school a few weeks ago. The reason is, that the school was celebrating Johnny Appleseed week.

—:—

"Poly———" you're liable to hear something like that, going through the halls any day in the week. If you do, don't be alarmed, it's just the Latin classes trying to learn their lesson. They're also scouting around for seals with Latin mottoes, and they have quite a collection.

—:—

Any of us who is good at quiz bees should be in one of Mr. Davis's history classes. Once a week the whole room gets up and recites the right answers to the questions. So far only the follow-

ing people have been smart enough to know the answers: James Crum, Bruce Cook, James Day, Bill Ingram, Harold Huffman, Shirley Calmes, Marilyn Fleming, and Ruth Lewis.

—:—

Just warming up for a hard year's work are Miss Moser's math and algebra classes. The ninth graders are trying their luck at solving equations and the seventh graders are reviewing their fundamentals.

—:—

If you have a chance to peek in on Mr. Thoms' or Miss McIlvaine's room some time, do, for it will be worth your while to see the designs that the math classes have been working on.

Art Classes Study Tree Leaf Specimens

This fall the eighth grade Art Classes are studying about nature in connection with their art work. The pupils are bringing in tree leaf specimens, then making a naturalistic sketch in pencil drawing, which later will be developed into designs suitable for wallpaper, lunch cloths, and napkins.

The ninth grade classes are busily sketching arrangements of flowers and fruit dishes, which will later be printed in water colors.

Typing Course Added To Class Curriculum

Miss Voll, typing instructress, reports growing interest and enrollment in typing classes this year.

The first term plans are just to learn the keyboard. Later on the classes will be divided according to the courses pupils are taking. Those taking the commercial course will emphasize vocational typing, business letter writing, filling in forms, and speed tests. Pupils taking the college course will be trained in typing for personal use—social letters, plain copy work, and composing on the typing machines.

During the second term Miss Voll hopes to organize a typing club in which students will be given awards for speed and will do typing work for the faculty as needed.
