A Letter to Santa

Dear Santa Claus,

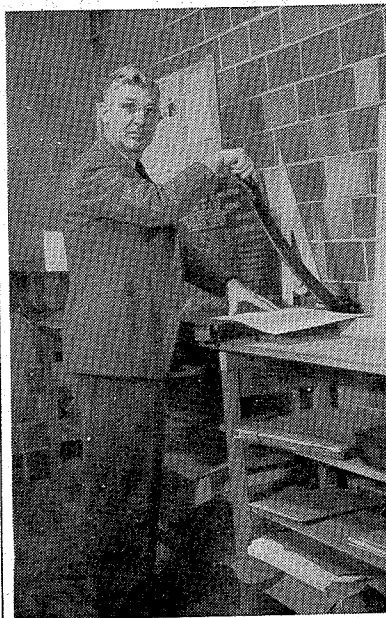

Since it is getting close to Christmas, I thought I might drop you a few helpful hints as to what I want. In my last letter I said I was in grade school, but now I am bigger and, oh, Santa, so much better. I now go to Johnny Appleseed and I think it's wonderful but I wish you could add a few things to the school. Here is my list:

- Elevators to save some time in going from floor to floor. You know it takes lots of time and energy to climb up and down steps.
- A basket for books on the front of a scooter would help, too.
- School should begin at ten o'clock with three hours off for lunch and the last period free to do what you want (even go home). Oh, won't you talk to Mr. Harmony and use your good influence?
- Adding, multiplying, subtracting, and dividing machines is every mathematics room. Sometimes I find it awfully hard to concentrate on a problem, especially when there are so many other things in the room to look at.
- Roast beef, mashed potatoes, vegetables, sundaes, salads, candy bars, and all delicacies in the cafeteria every day. I know all of us would love meals like that.
- Wednesday and Friday night dances in our gym and on Saturdays have the gym open as a recreation center for all "us kids." I can't understand why, but none of us have any place to go anymore except to shows, and they cost too much.
- A show in our auditorium (an up-to-date one) once a week at least. Now we get noon shows but if we don't eat first we can't see them. Couldn't you maybe send us a few reels?

I don't know whether you remember or not, but I talked to you a few years ago over the phone. I asked you to bring me some very special presents and on Christmas morning I awoke and found them. My faith in you was broadened and now I feel you will be able to fill my list again this year. Don't forget I've been good, and please come and see me.

Teaches G.I.S. Evenings

Mr. Hostetler's ambition is to live on a small farm and plant an orchard. Living on a farm is impossible now because of the many other activities of his work. Mr. Hostetler is teaching a carpentry class at Mansfield Senior High School which is part of a G.I. program. He teaches three hours on Monday and Wednesday evenings.

Mr. Hostetler worked at Barnes Manufacturing Company five nights a week, five hours a night during the war.

Hobby Is Collecting Pictures

Collecting pictures of old houses and antiques is a favorite hobby of his and he enjoys taking the pictures himself. When he is at home working around the house or yard, you would probably find him in a red shirt and overalls.

On evenings when he hasn't anything else planned, he would enjoy an historical movie, especially one dealing with Abraham Lincoln.

Inquiring Reporter

QUESTION: How did you first discover there wasn't a Santa Claus?

* * *

MILLARD PRYOR: I was climbing around where my father works when I discovered a locked closet. I stood on a chair, peeked over the transom and saw all my Christmas presents, unwrapped.

RUSSELL KECK: My parents had hidden some of my big presents in the neighbors' basement. I was walking near the neighbors' house when I tripped and saw my presents in their basement. Since they had no children and we were good friends I guessed the obvious conclusion.

PHIL BOLIN: I didn't believe in Santa Claus when I started to buy Christmas presents.

EDNA JOHNSTON: One Christmas I put some food on our dining

room table, a coke, and a piece of cake for Santa. About 5:00 in the morning I woke up and went down stairs to find my father eating the food. Later he put a note down saying, "Thank you for the food" —signed, Santa.

STEVE HENKEL: I discovered my parents bringing the presents down from the attic.

FRED RAITCH: After seeing about twenty different Santa Clauses of different sizes and shapes I discovered the age-old secret.

JEAN HATHAWAY: I found a scrap of green material on my mother's sewing machine and I kept the scrap. Later, at Christmas, I received a green jacket for my doll and a note saying it was from Santa Claus. It matched the scrap of material I had kept, so I asked my mother. She told me the truth after I told her what I had found.

Holly and Pine Needles

Pine Needles to those who sing and whistle in the hall. (If you want to do that, join Glee Club).

Holly to the Band and Miss Jeanne Worley, our new band and orchestra leader.

Pine Needles to the noise in the hall before school starts. (Don't you know it's a privilege to come in out of the cold?)

Holly to Dolores Hurley and Marlene Doerr for carrying a bucket of water down the hall. This was used for washing Miss Grahl's blackboards, naturally).

Pine Needles to the knots boys tie in the window shade strings.

Holly to the monitors and their fine work.

Pine Needles to a boy in 208 for the way he gets his belongings back.

Holly to students who can keep track of their books. (This is hard to do, isn't it?)

Pine Needles to those who loaf in study hall.

Holly to Santa Claus. (What would we do without him?)

Pine Needles to those who always take off their shoes during class. Holly to a very Merry Christmas.

Christmas parties are wonderful! My host at the party was a very nice *Mann*. His wife was beautiful in *Herr Brown* satin evening dress. Soon after I arrived at the party, the dinner *Bell* rang. We had a lovely dinner, the first course being *Oyster* stew, *Graham* crackers and *Craft* cheese. They also served *Reale* cavier. After dinner the hostess went upstairs for a look at the children in the children's *Ward* who were taking a *Knapp*. Then we all went *Bolin*. One of the guests, a *Farmer*, won every game. The *Miller* was good at the games, too.

Next we decided to go to the *Roller* skating rink. On our way we stopped at a bakery and the *Baker* gave us each some hot cookies. At the rink lots of people had *Falls* and got *Black* and blue. All in all we had a *Jolley* time.

Dear Katie:

Hello again. I ain't very happy today. Paw and Maw are having one of those awful battles. Maw don't think Paw should chew tobacco and of course he just loves it. Oh, was that close! Paw just threw a plate at Maw and it went whizzin' past me head. Excuse me while I put me hair down—it is standing straight up. I wish if they was goin' to practice target they would go out side.

I see we're goin' to have a dentist bill. Maw just yelled at Paw, and her false teeth dropped out.

I'd like to inform you I got me bubble gum back that Paw borrowed.

I is sewing. I got a pattern for a skirt and blouse. The awfulest disaster happened—I must have got the pieces mixed and me skirt has sleeves and me blouse is pleated all the way around.

Did you know I sits at the head of the class in school? I has the cutest little stool and I even gits to wear a hat. They call me "Dunce." I guess it's quite an honor to sit clear up there in front.

I has more fun in school. The other day a boy dropped something and stooped to pick it up. I had me bean shooter all ready and shot a bean at him. Now the teacher has me bean shooter and

Hints For Santa

It will soon be time for Santa to wax up his runners, so here are some tips on what the average teen-age girl will want.

Topping the list would be skirts and sweaters, which remain the old standby. A new fad is short-sleeved sweaters. They seem to be most popular in bright and pastel colors.

You might drop a hint to Santa to send you a blouse for those days when it seems too warm for sweaters. Long-sleeved, silk blouses trimmed with lace always look crisp and cool.

Why not dress up sweaters and plain dresses with pearls? Also, simple silver costume pins add that "smart look." Other clever accessories are an Indian bracelet and a ring to match.

And this year, as ever, suits are in style. They look "sharp" in checked, plaid or plain colors. If you have several skirts, it would be wise to get a blazer to match most of them. Blazers are in style, this year, with or without collars.

If you are stumped on what to get your chums for Christmas, make a list of the things you would like to receive. Then go over the list and consider which would be most suitable for gifts. It will save you time and worry. Just to give you a hint, what about a waterproof headscarf to protect her locks on damp or rainy days?

Jean Hathaway played the prelude, which was "Sonata" by Mozart. Joanne Peppard read a poem for the call to worship. Dorothy Cole, Katherine Beatty, Margaret Cook, and Marilyn Graham sang "Our Song." The officers and then the group took a pledge by candlelight.

Miss Elizabeth Chapin spoke on the purpose of the Y.W.C.A. Then the officers, each with a lighted candle, ushered the members from the auditorium as they sang "Now the Day is Over."

Intramural basketball is expected to start soon. The advantage of intramural basketball is to give the boys who do not get invited out for the varsity team a chance to play basketball outside of gym class. As most of you know, each homeroom has a boys' basketball team and a schedule is drawn up by Coach Henline and games are played each third period. Boys do the officiating and there is usually hot competition between the homerooms of each grade.

* * *

The boys' gym classes have been concentrating on basketball fundamentals so that Coach can decide whom he is going to invite out for basketball. Mainly they have done the "figure eight," passed the ball quite a bit, and scrimmaged some.

Rex Strine

* * *

In health classes the week of November 17-22 the boys were privileged, due to circumstances beyond their control, to go into the gym and dance with the girls' gym classes. This is an effort to get more boys to dance at the noon and evening dances.

* * *

Coach Henline started basketball practice for the ninth graders early this year, Tuesday, November 12, eighth period and after school. He gave 16 boys the privilege of coming down from eighth period study hall until regular practice started.

Pioneers Chalk Up First Victory

December 5 marked the first victory of the 1946-47 basketball season for the Pioneers. The victims were the Union reserves, the score being 29-18.

This was the opening encounter of the season for Coach Norm Henline's quintet comprised entirely of new talent without a letter winner among them. All of last year's varsity left for senior high this year where most of them are playing for the high school reserves. Although several players saw action last year, only Tipper and Anderson scored any points, Tipper scoring one and Anderson scoring two points.

Widening the margin of 6-5 at the half, the Pioneers out-scored the Union five 13 to 11 in the last half to return a comfortable lead by the closing whistle.

The scoring honors went to R. Diehl, Union forward, with five fielders for 10 points. Next in line was Tipper, Pioneer forward, with four field goals and one charity toss for 9 points. N. Diehl, Union guard, Rubino, Pioneer forward, and Marchant, Pioneer guard, each had five points.

Bargahiser and Anderson controlled Union's backboard for the most part but Franks, Union's tall center, was usually making it hard for the Pioneers to rebound any of

BOYS PLAY NOON BASKETBALL

Several basketball games have been played at noon thus far. The first of these was a contest between the probable starting five and the reserves. The score was 69-9 in favor of the varsity. Tipper of the varsity, was high scorer.

* * *

Another game was between a group of eighth graders. The scoring started slow with the seventh graders first but the resulting score was 25-8 in the eighth graders' favor. This decided who would play the varsity.

* * *

The next day the eighth graders encountered the varsity with the score 41-42 in favor of varsity. The eighth graders started strong but lost out after the score reached 15-15.

On December 3, the same seventh grade team played an eighth grade team minus Harmon and Reale who have been working out with the varsity. The seventh grade looked good but couldn't keep up with the scoring and lost 19-10. Fritz Haring led the scoring with 6 points for the eighth grade.

Students See Movies Of Social Problems

When interviewed in regard to his ninth grade social science classes, Ensil McNabb said, "Our social science classes have been enjoying some educational motion pictures which have now been coming through according to a schedule arranged last year.

Our first picture was designed to show the proper procedure for the prospective employee. The second picture was a story of four boys, three of whose lives were ruined because of parental neglect. The third picture that we saw this year was entitled "Boy's Town," and showed what some of the civic responsibilities of the community are in providing proper recreation, which is such a large factor in the prevention of wrongdoing.

Study Personality

A part of our classroom work this next period will center around the development of personality and

will include such topics as the vocational significance of personality, desirable traits of personality, and the value of extra-curricular activities in the development of personality.

There are four sections of our class which meet daily in room 114."

Discuss City Water Supply

Mansfield's city water supply has been the main topic of study in Brook Huber's general science classes which meet daily in room 203.
