Martin Luther King Jr. Day

Did You Know?
National Milk Day
National Milk Day is marked for January 11 to observe the very first time milk was delivered to homes inside sterilized glass bottles. In 1878, the concept of filling bottles with milk and sealing them with waxed paper was born. Before that, conditions for storing milk (let alone delivering it) were unsanitary at best and hazardous at worst. Now that we have the technology to pasteurize and deliver fresh milk to processing facilities, stores and schools across the country, the most basic dairy product is more accessible than ever before.
