## EASTER

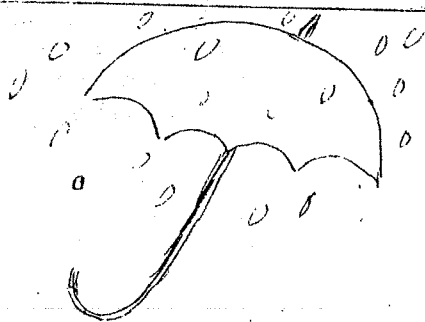

Easter is a Christian festival which honors Christ when he rose from the dead. Easter gets it's name from a Anglo-Saxon goddess.

In most Christian churches, Easter marks the end of forty-day observance of Lent season.

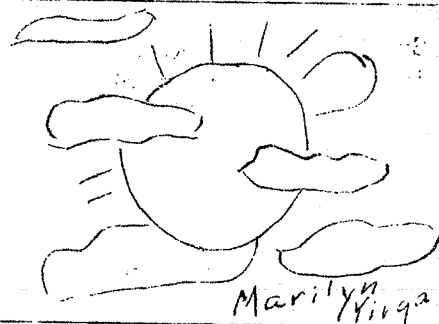

The Protestant churches commonly observe Easter with special services, music and flowers. A Mass on Easter Sunday closes the Lenten season in Catholic Churches.

Barbara Constance - 5

\*\*\*\*\*

# SCHOOL NEWS

## SPRING VACATION

All the Mansfield schools will have a vacation for Easter. It will start April 20. Then we will come back April 25. We will get three extra days off of school. Five days all together. I hope you have a happy Easter.

Willy Fuhrmann - 5

\*\*\*\*\*

## CLEAN-UP WEEK

The week of May 1, is clean-up week in Mansfield. The fifth and sixth grades of Mansfield are making posters for clean-up week. They will illustrate clean up, paint-up and fix-up. The posters will show keep Clean Around Homes, Better Citizens, Beauty, Keep Mansfield Clean and have Clean Streets. The teachers will pick five good ones for stores, offices, and other places. The rest will go in your school to represent Clean-Up Week.

DEBBIE GILBERT - 5

\*\*\*\*\*

## SCHOOL SCIENCE EXHIBIT

The 4th, 5th and 6th graders made science

project for school. There were exhibits on horses, stars, brains, plants, rocks, soils, and many more. There were three I liked best. They were about horses, rocks, and soils. I liked the one about horse because the person had drawn a picture and told much about the horse. The rocks were interesting because the person told about the rocks and showed some of the different kinds. The one on soils showed the different kinds of soils that came from Richland County. The exhibit was held in Room 13. Our parents were invited to see it.

Donna Batson - 5

\*\*\*\*\*

## SPELLING SCHOLARSHIPS

The Mansfield New-Journal is sponsoring a spelling contest. The children participating were from grades 5 - 8. All schools participating were from Richland County.

In our school cur champ was Candy Hampton. She will go to Raemelon School for Mansfield finals. The award will be a twenty-five dollar scholarship for the area

winner. We hope our girl wins.

Thomas Metz - 5

\*\*\*\*\*

## MALABAR FARMS

The fifth grades are taking a trip to Malabar Farm on May 23 or 24. There are two trails Jungle Trail and the Rimrocks Trail. We will not find out which trail we are going on till we get there.

Dr. Chapman will be in charge of the trips.

Paul Parr - 5

\*\*\*\*\*

## AN INTERVIEW WITH MRS. SKELTON

Mrs. Skeldon is a new teacher for the second grade in Grubaugh School. She has been here since Christmas vacation.

She said she got her degree for teaching from Central Michigan. That is where she taught before she came here.

She said she has one little girl.

She likes to teach second

or third grade.

She said she liked teaching here at Grubaugh.

Jeanette Weaver - 5

\*\*\*\*\*

MR. AMBACHER

Mr. Ambacher lived in a town called Ravenna, Michigan before he moved to Ohio. He lives in Ashland at the present time. Mr. Ambacher went to a school called Sibson. He got his degree at Shelton, New Jersey. Mr. Ambacher is happily married with two daughters. He likes Grubaugh very much. He is a new teacher here since Christmas vacation. He teaches the fifth grade.

Stanley Holloway - 5

\*\*\*\*\*

#### THE GRUBAUGH GYM SHOW

On April second and third Grubaugh pupils will put on a gym show for their parents. One room from each grade will perform on April second. The other rooms will perform on April third.

The pupils will do many different things such as basketball, wrestling, and dancing.

The pupils will all be trying to show what they have learned in their gym classes.

Bruce Wallace - 6

#### SPRING SAFETY BICYCLES

The rules for safe bike riding are:

1. Wear white after dark.
2. Remember hand signals.
3. Don't ride in the street.
4. Have a reflector for your bike.
5. Don't race on your bike.
6. Stay a good distance behind other persons.
7. Make sure your brakes work.
8. Don't ride with one hand.
9. Don't show off on your bike.
10. Don't ride double.
11. Look where your going.

Jeanette Weaver - 5

\*\*\*\*\*

#### KINDERGARTEN FIRST GRADE REGISTRATIONS

This year at Grubaugh there will be summer kindergarten. There will be 26 children, 16 boys and 10 girls. The children beginning kindergarten in the fall period include 13 boys 11 girls. For the first grade there will be 30 boys 23 girls for the fall period.

Joanna Rose - 5

\*\*\*\*\*

#### CUB SCOUT DISPLAY

This year the Cub Scouts of pack 134 had a display in the window of Pool's Neighborhood Store. Their subject was Build, Serve,

Achieve. They had sub subjects such as crafts, helping at school, and helping at home. This display was a contest for all the Cub Scouts of Richland County.

All the dens helped with it.

The Dens with the den mothers were: Den 1, Mrs. Richards; Den 5, Mrs. Battisti; Den 6, Mrs. Roth; Den 8, Mrs. Montitello, and Webelos, Mr. Montitello.

This year they won second prize.

Their prize was four dollars plus four dollars that Mike, at Pool's gave us.

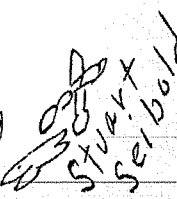

Stu Seibold - 5

### REPRESENTATIVES:

Ann Siebold  
Ronnie Smith

## OUR TRIP TO THE SUGAR CAMP

It was Monday, March 19. We were going to the maple sugar camp. We had a rough day getting boots for everyone, but we managed. We left at 2:45 P.M.. We went in cars. It was about six miles to the camp. On trees we saw buckets and plastic bags. When we went into the sugar house it was steamy.

In one room were tanks of sap. In the other were pans of boiling sap turning into syrup. While we were there more sap was brought in on a tractor. We were lucky that we got to see them pump it in.

We had a special treat, Mrs. Chambers gave us some maple sugar candy. That was our day at the camp.

Melissa Saprano - 4

## KINGWOOD CENTER

We went to Kingwood Center. First of all we went through the greenhouse. Then we went to see some birds. There were many different kinds. Next we went to the Art Building. There were so many different things. We saw a clay head of Mr. Daniels.

Last of all we saw a peacock and a red tailed hawk. Then we thanked them all for letting us come.

Gina Cox - 4

\*\*\*\*\*

## SCIENCE EXHIBITORS

This year our room had five exhibitors, they were --- Tina Blaising, Roddy Corbin, Ross Morehead, Debra Feeman, Craig Smucker.

Craig Smucker - 4

\*\*\*\*\*

## HASTY PUDDING

Boil one or two quarts of water or milk according to your family. Sift your meal and wet some of it with cold water. Pour in salt to your liking. Then stand over the kettle and sprinkly meal, handful after

handful and beat like mad with the pudding stick letting it boil between the whiles. When it is laborious to stir it, it is enough. It takes at least half an hour. Eat with milk or treatte. This was the old fashioned way. We made some in our room.

Debra Feeman - 4

## THE BIG CRASH

My name is Moo Moo, I live on the planet Mars. My job is to watch over the other Martians.

We were all living peacefully when we heard a big crash. A bomb exploded on our planet. We went flying through space, and landed on earth.

Everything looked strange. We started walking around. I went in a store, a lady screamed, "Ah!!!!". "oh, no now what will happen?"

I lamented. I heard a siren, by this time most of my fellow Martians were around me.

A policeman took me to the police station. I told the chief my story. When I was finished, he laughed, "Ha, ha, ha!".

He put me in an odd looking space ship and sent me and my fellows to Venus.

Kathie Jenny - 4

\*\*\*\*\*

#### MISS WOLF'S ROOM

#### REPRESENTATIVES:

Gary Ungerer  
Joy Wolfe

#### MY TRIP TO A SHEEP FARM

On Wednesday morning, at 9:15, my class went in a bus to Mr. McGrew's Farm. We watched the men shear the sheep.

We learned that there are many kinds of sheep. Some kinds are Columbia and Merino.

Some of us asked him why he raised sheep. He said to make a living.

We saw baby lambs at the farm. He told why they took off the lamb's tails.

He answered many of our questions. We had a very good time. After which we took the bus back to the school house.

Pam Snyder - 4

#### MY TRIP TO AN ANTI-MISSILE

When the classes were coming back from the sheep farm, we stopped to see an Anti Missile.

It was gray with a white tip. It was also red, white, and blue.

Then a man came out. He was wearing a space suit which was similar to the one John Glenn wore on his flight. He showed something that looked like a tube of toothpaste only it was what you would eat out of.

The plane was marked U. S. A. F. which means United States Air Force.

Linda Fifer - 4

\*\*\*\*\*

#### KINGWOOD

When we got to Kingwood, we went to the greenhouse first. We saw all kinds of different flowers. Almost every room had different temperatures.

Then we went to the workshop. We saw different kinds of little birds there.

Then we saw the art exhibit. First we looked around and then we played a game. We tried to see whether the teachers or students saw the most stuff. The students won.

After then we saw some strange birds. The ones I liked best were the

peacocks. We saw the male and female fly over the lake.

Then we walked home.

Ronald Cunitz - 4

\*\*\*\*\*

#### SCIENCE EXPERIMENT

Take a tin can and tie two feet of string to it. Then fill it half full of water. Then start to swing it around and the water doesn't fall out.

Stanley Coe - 4

\*\*\*\*\*

#### A FRIEZE

We made a frieze in our room. We had some people in our room on the trampoline and some people dancing and some people playing basketball. But Mr. Strine was watching all the things.

Donald Kauf - 4

\*\*\*\*\*

#### MY FAVORITE WORK IS SPELLING

I like spelling because it's easy. I spell all my words right sometimes. I like the tests in spelling

Joy Wolfe - 4

\*\*\*\*\*

#### A BAD STORM

One day we were going over Lake Erie. Then it started to rain. We had to

land on Put-In-Bay. We brought the plane into the hanger. It rained and hailed. The storm lasted about two hours. Then a small plane came to land. It just about tipped over. Then we were on our way on our plane.

Joe Dopps - 4

\*\*\*\*\*

#### THE SQUIRREL IN THE WINTER

The squirrel lives in a tree. He eats nuts and acorns. He can climb very well. The flying squirrel can climb a tree, then glide to the ground.

Stanley Coe - 4

\*\*\*\*\*

#### MY SPRING VACATION

On my spring vacation, I am going to go to Florida. We might spend two weeks in Florida. I want to go to stay at Miami Beach.

Pam Snyder - 4

\*\*\*\*\*

#### SPRING VACATION

For my spring vacation I am going to my Aunt's house. We are going to hunt Easter Eggs. Who ever gets the most wins a Blue Ribbon.

Toni Owen - 4

\*\*\*\*\*

#### MR. AMBACHER'S ROOM

##### REPRESENTATIVES:

Jacque Glaze  
Jennifer Wolfe

#### COLLEGE BOWL

Our class divided up into five different teams and named our teams a name of a college. Every week we have a College Bowl. Jennifer's team is Miami. Jimmy's team is Michigan State, Lynn's team is Kent State, Jacque's team is Ohio State. Here's the place that the teams are in:

Miami  
Ohio U.  
Michigan State  
Kent State  
Ohio State

Just in all the games we played in March, Ohio U. is in first place and Miami is in second place.

Jimmy Imler - 5

\*\*\*\*\*

#### OUR CLUBS

We have started clubs. There are five clubs. The clubs try to show or do things. There are the Hot Rod C, Science C, Record C, the 3 Sports Men C, Art C.

Duane May - 4

\*\*\*\*\*

#### MISS MILES ROOM

##### REPRESENTATIVES

JoAnna Rose  
Robert Todd

#### OHIO

Our class is studying about Ohio. Some of the things are:

- I. Historic Ohio and Early Claims.
- II. Symbols of Ohio
- III. Other places and events of interest.
- IV. Famous people.

Ohio's capital was not always in Columbus. It was in three other places. It was first in Chillicothe in 1800 then Zanesville and back in four years to Chillicothe.

Then to Columbus in 1816 and has been there ever since.

#### Symbols of Ohio

Ohio has a seal that was adopted in 1803, the flag in 1902. Our flower is the carnation. The bird is the Cardinal. The tree is the Buckeye. Our song is Beautiful Ohio.

Ohio is often called the father state because of the seven presidents that were born here.

Randy Corbin - 5

\*\*\*\*\*

#### OUR KITE FLYING CONTEST

Miss Miles' room had a kite flying contest on

Wednesday, March 28, 1962. The contest was held on the playgrounds of our school. For the contest there were first, second, and third prize ribbons. The first prize winners were, Gary Holt, Tom Schneider and JoAnna Rose. The second prize winners were Eddie Westler, Terry Krise, and Marilyn Yirga. The third prize winners were, Mary Cyrus, Donna Batson and Billy Fuhrmann. The reason we wanted to have the contest was to find out who was the best skilled kite flyer.

Marilyn Yirga - 5

\*\*\*\*\*

#### CLAY POTTERY

Room nine made clay pottery on March 27. First we spread papers on our desk and on the floor. Then we each got a piece of clay. Most of us made bowls or trays. One boy made a vase out of clay. Another boy made the Flintstone House and another made a face.

The last thing we did was put water all over the things we made. Then we set it in the sun to dry on the table. We will paint and shellac them.

Billy Fuhrmann - 5

\*\*\*\*\*

#### ENAMEL PINS

Our class is making some pins in the kiln. First we bake the enamel on the

back of the metal. Then we put the enamel on the front. For the third baking we make a design on them.

Terry Krise - 5

\*\*\*\*\*

#### DERRICKS AND PULLEYS

Some of the members of our 5th grade class volunteered to make a derrick or a pulley. Some were run by electricity, others by hand. Those who made these machines were: Randy Corbin, Stanley Holloway, Linda Thorp and Gary Holt. We made these machines to prove that it was easier to lift heavy objects by cranking than lifting with bare hands.

Gary Holt - 5

\*\*\*\*\*

#### SCIENCE FAIR TRIP

On March 29, our class took a trip to the Mansfield Senior High School and saw their exhibits. The most interesting one was the piranha fish. The littlest one had the biggest teeth.

Another one that was interesting was the chicks hatching from their eggs. They went up to twenty-one stages. The snake was an interesting one, too! He was so furious that he could tip over his cage and get loose. He was about five feet long.

I liked the one about the

skin diving. Some of the instruments were spear gun, knife, weight belt, flippers, socks, mask, air tank, foam rubber suit, mozzle, and an under water watch.

Thomas Metz - 5

\*\*\*\*\*

#### SPORTS

In gym we play many sports. We just got done with basketball. Our team, the Globetrotters, won. We won six games and lost two. We won the Championship.

Randy Corbin - 5

\*\*\*\*\*

#### MRS. BARKER'S ROOM

#### REPRESENTATIVES

Marilyn Garber  
Tom Stipe

#### CLASS NEWS

Room #12 was very, very busy making our mural on Hawaii. We got the idea from our reports on Hawaii.

About three weeks ago we tried something new. We drew maps of Central America using longitude and latitude lines.

Last week we had four scholastic tests - English, spelling, science, and social studies. Math came in with our achievement tests. By April 13, 1962, we will have our second screenings done. The top two will then go to Central Office.

What interesting things  
has your room done?

Carol Starnes - 6

\*\*\*\*\*

#### CLASS NEWS

We made maps of Central America. First we drew latitude and longitude lines then we put in the countries. We did this so it would be of the right proportion. We were really surprised at the way they turned out.

I hope you all saw our Hawaiian mural that was in the cafeteria. We all had a certain part to do and no one was left out.

Sharon Patrick - 6

\*\*\*\*\*

#### THE SCIENCE EXHIBIT

The sixth grade is going to have a science exhibit Thursday, March twenty-nine, in room thirteen. Some of the science projects are on the brain, the lungs, the ear, the heart, the frog, the cells, the horse, and butterflies. In class we explained our projects to the other sixth grade children and answered the questions they asked.

Linda Schmidt - 6

\*\*\*\*\*

#### OUR ADVENTURE AT KINGWOOD

Monday afternoon our class

went to Kingwood to visit the art museum. When we reached the museum, Mr. Daniels was there to greet us.

In the museum they had some type of art displayed from every school in Mansfield. First we just looked at the art. After a little while Mr. Daniels asked us what we saw.

A lot of the art was made of children's own ideas. I found the trip through the art museum very interesting. I think you would enjoy it too.

Chris Herrick - 6

\*\*\*\*\*

#### THE MISSILE

On March 21st the two six grades went to see missile at the Senior High School. The missile was made by the Boeing Aircraft Company. It goes higher and faster than any other missile. The missiles' weight is about 15,000 pounds. Its speed is supersonic. The name of the missile is the "Bomark-IM-99. Its average height is 120 to 150 feet.

Gail Cline - 6

\*\*\*\*\*

#### MR. HAMILTON'S ROOM

REPRESENTATIVES  
Ronald Ruley  
Susie Ungerer

#### KINGWOOD CENTER

We left for Kingwood on

March 26, 1962, at 12:30 right after lunch. When we got there we went through the greenhouse. On the last part of it was a room with flowers and bees in it.

Then we went to see the art room where they keep all of the things made out of clay and paint. When you first walk in you see a big angel playing a harp and another one hanging from the ceiling playing a horn.

Then we went through the work shop. There we saw some birds. Then we saw some ducks and chickens and then we saw a hawk that was trained for a special trick.

Charles Cyrus - 6

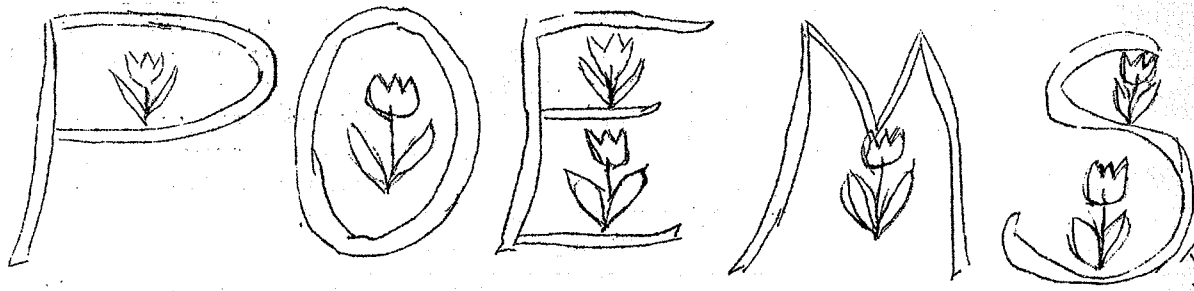

\*\*\*\*\*

#### SCIENCE

In our room we have had several science experiments. One was on vitamin by Wendy Michener. I thought that one was good. Others were on hair, teeth glue, the Telegraph, the Guided Missile, the Water Cycle, the Brain, the Heart, the Lungs, and many more. All of these science experiments will be on display in room 13 for everyone to see.

Diana Grace - 6

\*\*\*\*\*

## PETER RABBIT

An Easter Rabbit  
Came hopping along.  
Running and jumping  
And singing a song.  
His name is Peter,  
He's a very big eater.  
Lettuce and carrots  
He likes the best.  
After he eats  
He likes to rest.

Rebecca Stehle -3

\*\*\*\*\*

## JONNY BUMBLEBEE

My name is Jonny Bumblebee.  
My best friend is a flee.  
He likes dogs and I like  
flowers.  
He hates humans just like  
me.  
On this you see, we agree.

Richard Coleman - 6

\*\*\*\*\*

## APRIL

April showers,  
Bring May flowers,  
When flowers bloom,  
Birds start to croon,  
Lightning strikes the sky,  
Flowers turn when it goes  
by.

Gordon Shreve - 6

\*\*\*\*\*

## "OUR COO-COO CLOCK"

We have a clock that goes  
tic toc!  
It's hung on the wall at  
3 o'clock.  
And we listen to its call  
It announces time to one  
and all.  
  
No one likes that bird in-  
side  
It always stays in there  
and hides.  
It's should tell time to  
all  
But this is all it would  
call  
Coo-coo!

Jeanette Weaver - 5

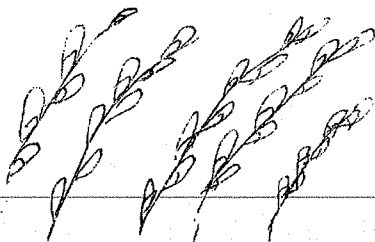

\*\*\*\*\*

## FLOWERS

April brings showers,  
So that May can grow  
flowers,  
That bloom in the spring,  
Which grow happy and gay,  
In the sun every day.

Marianne Battisti-6

\*\*\*\*\*

## MY PROJECTOR

I have a red projector,  
It shows in color, too,  
And if you look at all the  
shows,  
You'll see sixteen for you.  
I have a red projector  
It's very nice you know.  
If you want to see the  
show,  
You'd better go--  
See Steven Coe.

Steven Coe - 3

\*\*\*\*\*

## SUMMER, SPRING AND FALL

In the summer, spring and  
fall  
I listen for a bird to  
call  
They sing so happily  
They seem to be saying  
something to me.

I try to see them, but they  
hide  
Because I am not on their  
side  
When the winter weathers  
come  
They fly away in a great  
sum.

They fly together or alone  
And when they leave I feel  
alone.  
But when they come back  
again  
It is their friendship  
which I gain.

I sit in the yard every  
day  
Just to pass my time away.  
I love each bird that sings  
to me  
In the tall and lovely tree.

Marilyn Yirga - 5

\*\*\*\*\*

### SPRING

Spring is the time when  
birds do sing,  
The corabells seem to  
ring.  
The brook sings its merry  
song,  
And church bells go ding-  
dong.  
Many tulips are in bloom,  
They smell like fragrant  
perfume.  
Bright are the sun's rays,  
And a tree lifts its arms  
and prays.

Carol Starnes - 6

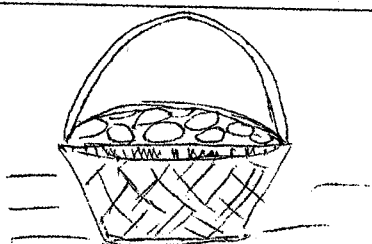

\*\*\*\*\*

### SPRING

I am glad its almost  
Spring  
When the birdies sing,  
They sing in your backyard  
And your garden, too.  
I love to play in Spring  
With playmates like you.  
And we can also swing  
While the birds sing.

Debra Gilbert - 5

\*\*\*\*\*

AN EASTER POEM

Easter comes just once a  
year  
So just lend a ear.  
And hear what we have to  
say  
About Easter Day, Hey!  
Hey! Hey!  
Easter rabbits one by one  
Hop through the woods and  
run, run, run.  
They have lots of fun, fun,  
fun.  
On Easter Day, come and  
play, play, play.

Cindy Bucher and  
Becky Stinson - 4

\*\*\*\*\*

### MOTHERS DAY

On the second Sunday of  
May  
There is a very special  
day  
This day is set aside for  
you, Dear  
The one who has always  
given me cheer.  
Mother this day is meant  
for you  
You always made me happy  
when I was sad & blue  
When I was just a little  
girl you always took  
care of me  
I can never forget, it  
means so much, you see.

I shall never forget you  
on and on through the  
years  
And if anything should  
happen to you

I should surely burst  
into tears.

Vanessa Jocka - 6

\*\*\*\*\*

### EASTER RABBIT

When Easter Rabbit comes  
hopping along,  
He'll be hopping fast,  
So your house will not be  
the last.  
He brings lots of eggs  
But of course it is a  
habit  
Because he is an Easter  
Rabbit.  
And next time you see an  
Easter Rabbit go past  
your house  
You be as quiet as a  
mouse.

Bill Schmidt - 3

\*\*\*\*\*

### POKEY

Pokey is a little dog,  
His master's name is  
Jog,  
Jog threw a little  
ball,  
Pokey found it in the  
hall,  
Pokey got a licking,  
And Jog was almost  
sinking -  
In the swimming pool  
next door.

Ellen Prior - 6

## Kingwood Center

When we went to Kingwood Center, we went through the greenhouse. We saw tulips, slipper plants, carnations and Easter lilies. Then we went to the art show. There were two angels one had a horn and it looked like he was blowing it. Then we saw Lynn's horse, Randy's cowboy, Tarin's frog man and other things. Then we went to the birds. We saw the peacock, ducks and the hawk. The hawk performed for us.

Sandra Peay - 2

\*\*\*\*\*

## NEW PUPIL

We have a new boy in our room. He came from Wooster Heights. He lives at 181 West Park Blvd. All the boys and girls like him. His name is Barry Bailey.

Bonnie Hedrick -2

\*\*\*\*\*

## THE GYM SHOW.

Our school is going to have a gym show. Room 5 will do dances. We will do Bingo, 7 jumps.

Robert Spencer - 2

### SPRING

When it is Spring the robins are coming back to their nest. They will have more babies. That is a sign of Spring. Flowers come out and they are very pretty. I like Spring very much. I can fly my kite all I want to. The grass is green. The trees are green. I can go roller skating too.

Laurin Marlin - 2

\*\*\*\*\*

### CAVEMEN

Cavemen lived a long time ago. They lived in caves. They killed to get food. Dinosaurs lived then and they were mean. The dinosaurs had fights, too. Most of them ate plants. Then the winter came, and most of them died. The end.

Robert Spencer - 2

\*\*\*\*\*

### THE SQUIRREL

One day I was out in the woods. I saw a little squirrel up in the tree and he was caught on a branch. He was caught very tight so I helped him. He was my very good friend. I took him home and I fed him because he was very hungry. The next day we went out to play. It was a pretty day and the sun was shining. We

saw another squirrel and my squirrel started to play with him. When I was ready to go home I called my squirrel. He wanted to stay in the woods. He will come up to me when I go to the woods so we are still friends.

Lynn Packer - 2

\*\*\*\*\*

### HORSES

I like horses. Horses are my favorites. I have 13 horses. I have 6 little horses. I have 7 other horses.

\*\*\*\*\*

### KINGWOOD CENTER

Our room and Mrs. Poffenbaugh's room went together. We walked to Kingwood Center. Dave helped the peacock fly so we could see his feathers. The hawk's wings are big. I saw the peacock's wife and she was white like snow. What I liked the best of all is the hawk. It has brown feathers. I think the peacock has a pretty tail. It has almost a green tail. They are the prettiest things in the land.

Suzann Terman - 2

### STRING DESIGNS

In our room we made string designs. First we put the string through the starch, then we put it on the waxed paper to dry. Then we put it up.

Leslyn Rose - 2

\*\*\*\*\*

### ABOUT ROBERTA RUCKMAN

Roberta lived in Tucson, Arizona. She went to Ann Rogers school. She came on February 26, 1962. She came in a car. Roberta says she likes it here. Once she went here in first grade.

Terry Sprague - 2

\*\*\*\*\*

### MY PARAKEET

I have a parakeet. His name is Lenny. He can say "pretty Lenny" and other things. He is pretty. His wings are pretty, too.

Donna Deschner - 2

\*\*\*\*\*

### WHY I LIKE SPRING

I like Spring because birds sing sweet songs. I have a bird house on the back of my house and I think a family of birds live there. We have flowers at our house.

Terry Sprague - 2

\*\*\*\*\*

## SHADOW

My dog's name is Shadow.  
He likes to play with balls  
He does not like baths. He  
does not like dogfood.

## THE MANSION AT KINGWOOD

Our class went to Kingwood to see the Art Exhibit, which was fine. After we saw the art exhibit, we went through the mansion where Mr. King lived. The house has two dining rooms, two libraries, a ballroom, nine bedrooms. Our house has only two bedrooms. You can get children's books from the library at Kingwood Center. The house was very beautiful.

Dana Landis - 3

\*\*\*\*\*

## HISTORY OF MAGNETISM

Centuries before the Greeks knew that the mineral lodestone could attract iron. People believed that hooks were on the surface of the magnet. Others believed that things were thrown off.

In 1600 William Gilbert of England found out that the earth is a magnet. He showed that magnetized iron lost its magnetism when heated in a fire and

got it back when cooled in a room temperature. In 1820 Hans Oersted discovered that an electric current would affect a magnetic needle. When a magnet is dipped into iron pieces they cling to it especially in certain places called poles. The poles are located at the ends. When a magnet is broken, new poles appear near the break so that each piece has at least one pole of each kind.

\*\*\*\*\*

## SCIENCE DISPLAY

We have a science display. In our science display we have a star fish, shells, and coral. Now we have glasses and were going to see what will rust. We have pennies, nails, marbles, clips, comb, and tacks. We put them in water. Do you know what will rust?

Bonnie Parr - 3

\*\*\*\*\*

## OUR SPACE EXHIBIT

We have a space exhibit in our class. We made pictures for our space exhibit on the wall. When we made up stores about space we got to copy it

over on white paper if it was good. We made pictures out of colored chalk. We had fun making pictures. We put our space exhibit out in the hall and it got wet.

Karen Robertson - 3

\*\*\*\*\*

## HISTORY BEING MADE

John Glenn is in orbit. His takeoff was at 9:47 from Cape Canaveral, Florida. Instruments guided him into space. Then he was on his own. The date was February 20, 1962. It is a special thing for history that Col. John Glenn is the first American man in orbit. The speed of the rocket was 17545 miles per hour. The rocket went about 160 miles into space.

Jimmy Fraifogge - 3

\*\*\*\*\*

## COUNTING CHANGE

In our room we have a counting change contest. So far the boys are ahead. The score is 49 to 34. The teacher will give a prize to the winner. Kenneth is ahead. He has 15 counting change notes. It is fun to count change.

Marie Longsdorf - 3

\*\*\*\*\*

## MULTIPLICATION

We are learning how to multiply. Multiplying is

a short way of adding. For example: if you want to find out the sum of five fives, instead of putting five down five times you just put down  $5 \times 5 =$  what ever the answer is. I think it takes less time to multiply than it takes to add.

Pamela Ferguson - 3

\*\*\*\*\*

#### OUR TRIP TO KINGWOOD CENTER

Tuesday we went to Kingwood Center. First we went in the Greenhouse. There were all different kind of flowers. Next we went to the Art Exhibit. There were angels made of chicken wire. I saw a cloth with ducks and birds painted on it.

Then we went in Mr. King's house. They put new shelves in the library.

We went to see the peacocks fly. Next we saw the hawk fly. Then we returned to school

Danny Bleen - 3

\*\*\*\*\*

#### A NEW GIRL

A new girl came to our class. Her name is Dianne Sheetz. The name of her old school was Stadium School. There are more boys than girls. Now the girls are almost up with the boys. We like Dianne.

Bonnie Parr - 3

#### CLOUDS

A cloud is a visible mass of little pieces of water or ice hanging in the air. Usually particles of smoke and dust make a cloud of steam. Anything that has a dark look to it, it is a war cloud. When the sun's rays strike water surfaces upon the earth some of the water's is evaporated and it goes in the clouds.

Bill Schmidt - 3

\*\*\*\*\*

#### DIAMONDS AND CRYSTALS.

Diamonds are very expensive. That is why most Americans can't afford a diamond. The largest diamond weighed 3,106 carets. They called it the Cullinan, but soon after it was found the government bought it. Crystals are part of the diamond family. Crystals are the base of the diamond.

John Hoffman - 3

\*\*\*\*\*

#### MY DOG

I have a new dog. Her name is Polly-Anna. She has a punched-in nose and curly tail. She weighs about nine pounds now but at first when we got her she weighed three pounds. She is a put. She is from China. My Mother said Polly-Anna is not a good watchdog. She is not a good watchdog because she is afraid of strangers.

Rae-Ann Kiraly - 3

#### MY SECOND TRAIN RIDE

First we got on a train and went to Chicago. In one hour we got on the Denver Zephyr and went to Lincoln, Nebraska. We got in Lincoln at 2:00 in the morning.

Kenneth Stewart - 3

\*\*\*\*\*

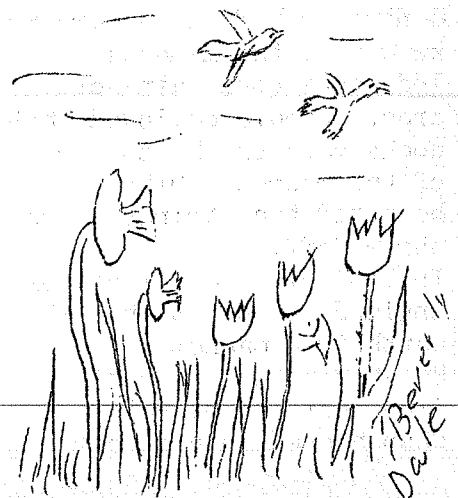

#### SPRING

In spring it is lots of fun. The sky and water are very blue and the birds sing. The clouds are white and look like powder puffs. The grass is nice and green and the trees are again dressed with green leaves.

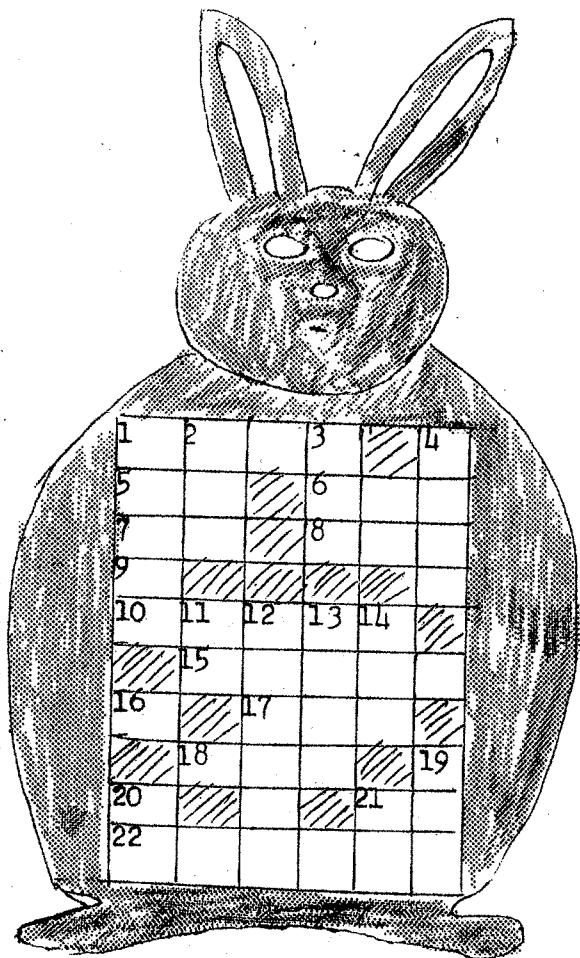

In spring it is nice and warm. The leaves are green and trees are brown. Sometimes boys and girls wear a blouse and shorts, that's the time when it is very warm. Sometimes I walk to the store with my mother and brother.

## COFFEE CAKE

- |                   |                                 |
|-------------------|---------------------------------|
| 1 cup sugar       | 2 cups milk                     |
| 1 teaspoon salt   | 4 cups flour                    |
| 1 tablespoon lard | 4 teaspoons of<br>baking powder |

Bake for 25 minutes.  
Cool for 10 minutes.

Marilyn Garber - 6

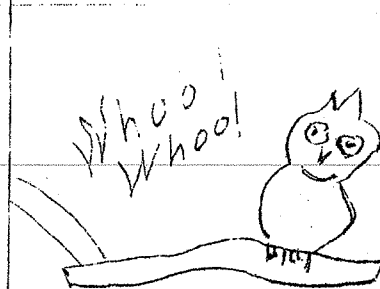

\*\*\*\*\*

## GINGER SNAPS

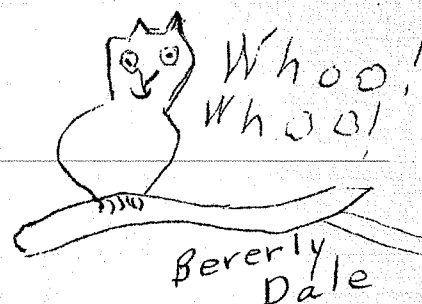

- |                              |                                  |
|------------------------------|----------------------------------|
| $\frac{1}{2}$ cup shortening | $\frac{1}{8}$ teas. soda         |
| $\frac{3}{4}$ cup sugar      | $\frac{1}{2}$ to 1 teas. ginger  |
| $\frac{1}{4}$ cup molasses   | $\frac{1}{4}$ teaspoon cinnamon  |
| $\frac{1}{4}$ cup water      | $2\frac{1}{2}$ cup (about) flour |

Mix shortening and sugar together. Add molasses. Sift flour and measure. Mix soda, ginger and cinnamon with flour. Add half to shortening mixture. Add water and then rest of flour, adding enough to make a stiff dough. Roll then on a slightly floured board. Cut with cookie cutter. Place on a greased cookie sheet and bake at 400° for 10 minutes.

Danette Pratt - 4

Whoo Whoo  
It's Jokes  
in the U.S.A.

TEACHER: When do leaves begin to turn?

JOHNNY: The night before exams.

\*\*\*\*\*

MARY: Is it true that carrots are good for your eyesight?

JOAN: Well, I never saw a rabbit wearing glasses.

\*\*\*\*\*

\*\*\*\*\*

JIM: How many hairs in a bunny rabbits tail?

BILL: None. They are all outside.

\*\*\*\*\*

WIT: Did you ever tickle a mule?

NIT: No, Wit, I never tickled a mule.

WIT: You ought to try it sometime. You'll get a big kick out of it.

\*\*\*\*\*

Have a policeman cookie?  
A policeman cookie?  
Yes, a cop cake.

FIRST SALESMAN: What do you sell?

SECOND SALESMAN: Salt

FIRST SALESMAN: Why, I'm a salt-seller, too!

SECOND SALESMAN: Shake

building.

WORKMAN: Yes, sir. That's the only kind we ever put up.

\*\*\*\*\*

FRED: I left my watch up-stairs.

TED: Call it. Maybe it will run down.

FRED: It can't. We have a winding staircase.

\*\*\*\*\*

HUNTER: I spotted a leopard.

HIS WIFE: Don't be silly, dear. They grow that way.

\*\*\*\*\*

TEACHER: How would you punctuate this sentence: I saw a five dollar bill on the sidewalk.

JIMMY: I'd make a dash after it.

TEACHER: Correct.

\*\*\*\*\*

TOM: When is an ear of corn like a baby?

GEORGE: When its in a crib.

SCIENTIST: I've just made a startling discovery-how

to make wool out of milk.

FRIEND: That's wonderful. But it must make the cow feel a little sheepish.

\*\*\*\*\*

DANNY: What is the biggest word in the dictionary?

RICKY: I don't know.

DANNY: Elastic because it stretches.

\*\*\*\*\*

FRED: Will I have to eat cake with a fork when the company arrives?"

MOM: "Why, Certainly".

FRED: "Then can I have another piece to practice on?"

\*\*\*\*\*

BILL: How did Glenn's flight make medical history?

JOE: I don't know.

BILL: It was the first capsule to take a man.

\*\*\*\*\*

JIM: Why is a tree like an elephant?

JACK: Why?

JIM: Because it has a trunk.

\*\*\*\*\*

SAM: What is a bull called when he is sleeping?

JOHNNY: "A bulldozer".

\*\*\*\*\*

PASSER-BY: Well, I see you are putting up a new
